EDUCATION

Aeronautics Institute of Technology, São José dos Campos, Brazil — *Jan 2019 – Jun 2025*
Ph.D. in Electronic and Computer Engineering
Cum. GPA: 9.5 / 10.0

Carnegie Mellon University, Pittsburgh, PA — *Nov 2021 – Jan 2023*
Ph.D. Exchange Program in Robotics

Aeronautics Institute of Technology, São José dos Campos, Brazil — *Aug 2016 – Jan 2019*
M.Sc. in Electronic and Computer Engineering
Cum. GPA: 8.5 / 10.0

Stony Brook University, Stony Brook, NY — *Jul 2014 – Jul 2015*
One-year Undergraduate Exchange Program in Mechanical Engineering
Cum. GPA: 3.93 / 4.00

Aeronautics Institute of Technology, São José dos Campos, Brazil — *Jan 2011 – Dec 2015*
B.Sc. in Mechanical-Aeronautical Engineering
Cum. GPA: 8.7 / 10.0

RESEARCH EXPERIENCE

SETMV — Virtual Military Shooting Range Simulator — Jul 2026 – Present
Department of Aerospace Science and Technology (DCTA) — *São José dos Campos, Brazil*
Virtual reality and 3D simulation for military shooting instruction, with performance analytics comparing simulated training with live-fire benchmarks to reduce training costs and ammunition usage.

C2 — Command and Control through Aerospace Data Fusion — Mar 2025 – Present
Institute for Advanced Studies (IEAv) — *São José dos Campos, Brazil*
Advanced Command and Control (C2) frameworks leveraging massive aerospace data fusion and high-performance computing to support operational planning in complex defense scenarios.

ASA — Aerospace Simulation Environment — Dec 2020 – Present
Institute for Advanced Studies (IEAv) — *São José dos Campos, Brazil*
Evaluation of military operational scenarios and tactical protocols for the Brazilian Air Force using the custom-built, object-oriented **ASA** simulation framework.

Co-development of a Bespoke Air-to-Air Weapon Simulation Environment — Mar 2024 – Dec 2025
Institute for Advanced Studies (IEAv) — *São José dos Campos, Brazil*
Offset-agreement cooperation between IEAv and MBDA to co-develop an air-to-air weapon simulation environment integrated with IEAv simulation capabilities and to train the Brazilian team.

Safe and Seamless Operation of Manned and Unmanned Aircraft — Nov 2021 – Jan 2023
Robotics Institute, Carnegie Mellon University — *Pittsburgh, PA*
Worked with **Prof. Dr. Sebastian Scherer** and **Prof. Dr. Jean Oh** on AI for autonomous aircraft integration into manned traffic, focusing on vision-based detection and trajectory prediction.

ITACOPTER 1 — Hexacopter for Civil Construction Monitoring — Jul 2015 – Dec 2015
Aeronautics Institute of Technology (ITA) — *São José dos Campos, Brazil*
Worked with **Prof. Dr. David Antonio dos Santos** on the design and flight testing of an unmanned hexacopter for infrastructure monitoring.

Stochastic Transport Processes at Interfaces — May 2015 – Aug 2015
Stony Brook University — *Stony Brook, NY*
Worked with **Prof. Dr. Carlos Colosqui** on the numerical modeling of Brownian Motion and colloidal particle dynamics at micro- and nanoscale interfaces.

Automatic Data Acquisition in Plasma Tunnel Tests Aug 2012 – Jul 2013
Aeronautics Institute of Technology (ITA) *São José dos Campos, Brazil*
Worked with **Prof. Dr. Gilberto Petraconi** on development of automatic data acquisition systems for plasma environments and evaluation of thermo-structural composite materials for aerospace protective coatings.

Thermionic Cathode Discharge in Low Pressure Aug 2011 – Jul 2012
Aeronautics Institute of Technology (ITA) *São José dos Campos, Brazil*
Worked with **Prof. Dr. Gilberto Petraconi** on the experimental analysis of thermionic cathode discharge and plasma physics in low-pressure environments for ion source efficiency improvement.

PROFESSIONAL EXPERIENCE

Institute for Advanced Studies (IEAv) Jan 2016 – Present
Research Engineer *São José dos Campos, Brazil*
Research on military **Modeling & Simulation**, **Machine Learning**, and data science for decision support systems, building simulation environments and analytical tools for complex aerospace scenarios.

Brazilian Air Force (FAB) Feb 2013 – Present
Captain Engineer Officer *São José dos Campos, Brazil*
Captain (Dec 2022 – Present): AI researcher, coordinator of defense offset programs, and firearms instructor.
First Lieutenant (Dec 2015 – Dec 2022): data science research on defense scenario analysis and operational modeling.
Officer Candidate (Feb 2013 – Dec 2015): ITA research on aerial robotics, plasma physics, and advanced materials.

COC Educational System Feb 2017 – Jul 2021
Mathematics Teacher and Scientific Olympiads Coordinator *São José dos Campos, Brazil*
Orchestrated preparatory classes for Scientific Olympiads, guiding students to secure **158 medals** in 46 national and international competitions.

Emerge Brazil Oct 2016 – Dec 2017
Co-founder and Head of Communications *São Paulo, Brazil*
Bridged scientific research with industry, mapping over **300 technologies** and facilitating **60** technology-industry partnerships in the Brazilian market.

SKILLS

Natural Languages	Native Portuguese ◇ Advanced English
Programming	Python ◇ C++ ◇ R ◇ SQL ◇ MATLAB ◇ LaTeX
DL Frameworks	TensorFlow ◇ Keras ◇ PyTorch
Toolkits	NumPy ◇ Pandas ◇ Matplotlib ◇ Scikit-Learn ◇ SciPy ◇ Git ◇ Docker ◇ Linux

Preprints

[P1] Andre N. Costa and **Joao P. A. Dantas**. Analysis of Sequential Parameter Optimization for Computer Simulation Optimization. *SSRN eLibrary*, 2023.

SOFTWARE

Dec 2025: DroneSwarm2D — Autonomous drone swarm simulator for distributed defensive tactics. (INPI, 2025).
Dec 2025: AsaGym — Reinforcement Learning library for aerospace scenarios evaluation. (INPI BR 51 2026 003324-1).
Dec 2025: AsaFG — Human-in-the-loop integration module for air combat simulations. (INPI BR 51 2026 003322-5).
Oct 2024: ASA (Ambiente de Simulação Aeroespacial) — Simulation framework for modeling military scenarios. (INPI BR 51 2024 002174-4).
Jun 2023: AI Pilot — Close-proximity safe and seamless operation of manned and unmanned aircraft in shared airspace. (CMU Tech Transfer 2023-102).
2025: TartanAviation — Large-scale terminal airspace operations datasets.
2024: AsaPy — A Python library for aerospace simulation analysis and visualization.

SUPERVISION

1. **Artur Ligieri Nunes**. Stop Criteria in Defense Simulations: Comparative Analysis and Statistical Approach Proposal. 2025. M.Sc. Thesis (Electronic and Computer Engineering) — Aeronautics Institute of Technology. (*Ongoing*).
2. **Lucas Silva Lima**. Proposta de Algoritmo Distribuído para Enxame de Drones Defensivos de Pequeno Porte Baseado em Inteligência Artificial. 2025. M.Sc. Thesis (Electronic and Computer Engineering) — Aeronautics Institute of Technology.
3. **Lucas Silva Lima**. Proposta de Algoritmo Distribuído para Enxame de Drones Defensivos de Pequeno Porte Baseado em Planejamento. 2025. B.Sc. Project (Computer Engineering) — Aeronautics Institute of Technology.
4. **Victor Luiz Dorea Beirão Costa**. Apoio à Decisão no Planejamento Baseado em Capacidades: Uma Análise de Cenários de Defesa no Ambiente de Simulação Aeroespacial. 2024. B.Sc. Project (Mechanical-Aeronautical Engineering) — Aeronautics Institute of Technology.
5. **Gabriel Henrique Gobi** and **Pedro Lustosa Rege Botelho**. AsaGym: A Python Library for Reinforcement Learning in Aerospace Operational Scenarios. 2023. B.Sc. Project (Computer and Electronic Engineering) — Aeronautics Institute of Technology.

HONORS & RECOGNITIONS

Dec 2025: 3rd place in the Simulation Challenge at the IEEE Winter Simulation Conference 2025 ($1,000 cash prize).
Nov 2025: 1st place in the Brazilian Ministry of Defense Doctoral Award 2025, recognizing the best Ph.D. thesis in the country in defense science and technology (R$4,000 cash prize).
Dec 2024: WSC Diversity Award at the IEEE Winter Simulation Conference 2024 in Orlando, United States.
Dec 2024: Runner-up Best Poster Award at the LACORO Summer School on Robotics 2024 in Chile.
Nov 2024: 2nd place in the Performance Review Commission (PRC) Data Challenge 2024 for developing an open Machine Learning model to infer flight Actual TakeOff Weight (ATOW).
Jun 2024: ML and Systems Rising Star 2024, awarded by MLCommons.
Oct 2023: 3rd place in the Data Science Challenge 2023 for predicting the Estimated Landing Time (ELDT) of flights.
Jun 2023: Best PhD Colloquium Award at the Conference on Principles of Advanced Discrete Simulation (PADS) 2023.
Oct 2021: 3rd place in the 5th Brazilian Competition on Knowledge Discovery in Databases (KDD-BR) for predicting solutions of the Travelling Salesman Problem (R$200 cash prize).
Oct 2021: Military Bronze Medal, awarded by the Brazilian Air Force.
Dec 2019: Ambassador Award of Excellence 2019, International Youth Math Challenge (IYMC).
Oct 2019: 6th place in the 3rd Brazilian Competition on Knowledge Discovery in Databases (KDD-BR) 2019 (39 competitors) for predicting flight delays for a Brazilian airline.
May 2019: 4th place in the Data Science Challenge at Engineering Education for the Future (EEF) 2019 for predicting real estate prices in Brazil using regression models.
Dec 2015: Honorable Mention in the Department of Humanities, Aeronautics Institute of Technology.
Mar 2014: Military Merit Award, Brazilian Air Force (top 25% behavioral grades).
Nov 2011: 1st place overall in the Brazilian Air Force Reserve Officer Training Corps (CPORAER-SJ) 2011 (120 candidates).
Dec 2010: ITA Entrance Exam Approval in 2010, joining the Aeronautics Institute of Technology (120 admitted students out of 7,627 applicants) in one of Brazil's most competitive entrance exams.
Jan 2009: Academic Merit Award, Brazilian Air Force (top 25% military grades).
Oct 2007: Bronze Medal in the 10th Brazilian Olympiad of Astronomy and Astronautics (OBA) (187,726 competitors).
Dec 2006: Honorable Mention in the XIV Ceara Science Olympiad — Biology (OCC), organized by the Federal University of Ceara (UFC).
Dec 2006: Gold Medal in the Internal Science Olympiads 2006 (Math, Physics, Biology), Farias Brito High School.
Nov 2003: Honor to Merit (2nd place three times, 5th place one time) in the Internal Mathematics Olympiad 2003, Christus Middle School.
Oct 2003: 2nd place in the 3rd Christus Exhibition of Science and Technology (EXCETEC), category "Exact, Social and Commercial Sciences".

FELLOWSHIPS & GRANTS

May 2026: DAAD AInet Fellow (AI in Neuroscience), awarded by the German Academic Exchange Service (DAAD) in the Postdoctoral Networking Tour in Artificial Intelligence (Postdoc-NeT-AI).
Dec 2025: Travel Grant ($1,000) to attend the IEEE Winter Simulation Conference 2025 in Seattle, United States.
Dec 2025: Travel Grant ($1,500) from the LatinX in AI Coalition to attend the LatinX in AI Research Workshop co-located with NeurIPS 2025 in San Diego, United States.
Jun 2025: DAC Young Fellow for the Design Automation Conference (DAC) 2025.
Jun 2025: Travel Grant (€2,900), CISB Call 15/2025, from the Swedish-Brazilian Research and Innovation Centre to support research at the 2025 Swedish Aerospace Congress.
Dec 2024: Travel Grant ($1,000) to attend the IEEE Winter Simulation Conference 2024 in Orlando, United States.
Dec 2024: Travel Grant ($500) to attend the LACORO Summer School on Robotics 2024 in Chile.
Jun 2024: Travel Grant ($1,000) to attend the 2024 Conference on Principles of Advanced Discrete Simulation (PADS).
May 2024: Travel Grant ($3,000) to attend the UNODA-SIPRI Workshop on Responsible AI for Peace and Security in Brussels, Belgium.
May 2024: Travel Grant (€3,150), CISB Call 13/2024, from the Swedish-Brazilian Research and Innovation Centre to participate in the WARA-PS Demonstration Week 2024.
Jun 2023: Travel Grant (€3,200), CISB Call 10/2022, from the Swedish-Brazilian Research and Innovation Centre to participate in an AI researchers delegation in Sweden.
Jun 2023: Travel Grant ($1,000) to attend the Conference on Principles of Advanced Discrete Simulation (PADS) 2023 in Orlando, United States.
Apr 2023: Travel Grant ($2,500) to attend Brazil at Silicon Valley 2023 in Santa Clara, United States.
Jun 2022: Merit Scholarship, Fundacão Estudar, awarded for outstanding trajectory and academic potential (30 recipients out of 33,876 applicants).
Oct 2016: Prolider Program Fellow 2016, selected by Instituto Four to participate in Prolider (29 recipients out of 2,013 applicants).
Aug 2014 – May 2015: Full Scholarship (≈$75,000) from Brazil's Ministry of Education for a one-year study program at Stony Brook University, College of Engineering.
Aug 2012 – Jul 2013: Undergraduate Research Fellowship, CNPq (Conselho Nacional de Desenvolvimento Científico e Tecnológico), for the Institutional Program for Scientific Initiation Scholarships (PIBIC) at the Aeronautics Institute of Technology, for the project "Automatic Data Acquisition in Plasma Tunnel Tests".
Aug 2011 – Jul 2012: Undergraduate Research Fellowship, CNPq (Conselho Nacional de Desenvolvimento Científico e Tecnológico), for the Institutional Program for Scientific Initiation Scholarships (PIBIC) at the Aeronautics Institute of Technology, for the project "Thermionic Cathode Discharge in Low Pressure".
Jan 2004 – Dec 2006: Full Scholarship (≈$30,000) for three years at Farias Brito High School.

VOLUNTEERING

Fundação Estudar Jan 2025 – Dec 2025
Ambassador *São Paulo, Brazil*
Engaging with a network of high-achieving young leaders, supporting initiatives to promote education and career development for Brazilian students.

International Astronomy and Astrophysics Competition Apr 2020 – Jul 2021
Ambassador *São José dos Campos, Brazil*
Inspiring youths for astronomy and astrophysics and encouraging participation in the competition.

International Youth Math Challenge Jul 2019 – Jul 2021
Ambassador *São José dos Campos, Brazil*
Informing schools and encouraging students and youths to participate in the competition.

Alpha Lumen Institute Jun 2012 – May 2013
Mathematics Teacher *São José dos Campos, Brazil*
Teacher of mathematics in the preparatory class for the ITA entrance exam.

OPERATIONAL COURSES

- **Emergency Parachute Jump Training (ISE)** – Brazilian Air Force (2008).
- **Firearms Instructor Course** – Brazilian Air Force (2023).
- **Open Water Diver Course (Certification No. 26030I6411)** – Professional Association of Diving Instructors (PADI) (2026).
- **Military Remotely Piloted Aircraft Operator Course** – Brazilian Air Force (2026).

ADDITIONAL ACTIVITIES

- **Sports:** Basketball player at Air Force Preparatory School and Air Force Academy (2007–2009). Amateur bodybuilder (2014–2015) – The National Physique Committee. Active Brazilian Jiu-Jitsu practitioner (blue belt, IBJJF).
- **Outdoors and Interests:** Orienteering, trekking, reading (science fiction), chess, and traveling.

November 7, 2026
